CONTINUATION SHEET OF Notice of Non-Compliant Amendment (37 C.F.R. § 1.121)

Continuation of 1C Other: The examiner notes that the double-hyphens at the beginning and end of each heading/paragraph in the "Amendments to the Specification" section should be deleted as this is "old amendment format" and does not comply with "new amendment format" in 37 C.F.R. § 1.121(b) instituted in July of 2003.

Continuation of 2B Other: The examiner notes that the Abstract of the Disclosure has been interpreted to be a part of the specification for the purpose of compliance with paragraph 1 of 35 U.S.C. 112 (In re Armbruster, 512 F.2d 676, 678-79, 118 USPQ 152, 154 (CCPA 1975)) as discussed in the Manual of Patent Examing Procedure (MPEP) section 608.01(b), entitled "Abstract of the Disclosure". Therefore, the Abstract has not been amended in accordance with 37 C.F.R. 1.121 and must be amended by striking-through those words being deleted (except that five or fewer consecutive characters may be deleted by double-bracketting) and underlining those words being added as the examiner must be able to discern whether any new matter has been added to the Abstract.

Continuation of 5 Other: The examiner reminds Applicant that a complete "Amendment to the Specification" section must be submitted in a single amendment or response document because the U.S. Patent and Trademark Office cannot cut-and-paste from Applicant's responses to arrive at one complete "Amendments to the Specification"

Application/Control Number:
